La lettera di apprezzamento del Rotary Club Kyiv Sophia.

ROTARY CLUB KYIV SOPHIA
KYIV, 16th October 2023

To the kind attention of Sergio ROLFO
President of ROTARY CLUB CANALE
ROERO - District 2032 - ITALY

My dear Rotarian Friend Sergio and all members of the Rotary Club Canale Roero

I hope this letter finds you well. It brings me immense joy and gratitude to acknowledge, once again, the incredible spirit of collaboration between your club and ours. Your recent donation of €2,500 for the reconstruction of Romodanov hospital's rehabilitation area for traumatized individuals stands as a testament to this memorable partnership. Your donation has been used for the final payment of building materials necessary for the finishing of the room which will host the rehabilitation machines and physical training instruments.

The essence of our collaboration goes beyond monetary contributions. It is a shared vision, a mutual commitment, and a testament to the belief that when we come together, we can amplify our impact manifold. This isn't the first time we've joined hands, and the continued trust and synergy between our organizations have been pivotal in bringing about meaningful change in the lives of those we serve.

The renovated rehabilitation area is not just a testament to our combined efforts but also a symbol of hope and recovery for our battered Country. As soon as the works will be completed, it will be our duty to show the results to all of you.

On behalf of everyone at Romodanov Hospital, patients, and families, I want to extend our deepest gratitude. The legacy of our collaboration will be etched, once again, in the walls of the rehabilitation area and in the hearts of those who find solace within them.

As we look forward to more collaborative endeavors in the future, please know that your generosity and partnership are valued beyond words. Together, we are not just making a difference; we are making our world a better place to live.

Warmest regards,

TAMARA NEDOBOR

President RC Kyiv Sophia
